Morning Greg-

Please see below. I have not contacted Ex. 6 - Personal Privacy yet, as I have a couple of folks ahead of her to call this morning. Let me know if any of your guys plan to contact her.

Thanks!

Summer

Would you please forward to Greg (or whatever else it is that you're doing with these)?

Thanks!

Hello:

We have our own well which is about 65 feet deep. We live about 200 ft from the Conewago Creek, in Dover township. I did see the water turn a reddish/rusty color, which since has cleared up. Also, in my house, I have a salt water fish tank which occasionally need to add water due to evaporation. Don't want to kill my fish also.

Thanks

What is the source of your drinking water?

Subject: Miller chemical fire in Adams county and leaking into Conewago Creek

Hello:

We live down stream, Dover Township, from the chemical fire that happened in Adams county. Noticed that the creek is a rusty color which I'm assuming is from the fertilizer leaching into the creek. We have been told not to boat, swim etc in the creek. I have not seen anything regarding the drinking water for us in Dover Township. Is the tap water safe to drink or how long should we wait before using water from the tap again. We are directly along the creek.

Thanks
